**Delhi:** Covid-19 pandemic has affected the economy of the country in an unprecedented manner. While the country continues to battle at both health and economic fronts, it has come to fore that that the pandemic has not only claimed lives and affected health of the population, but the common had to suffer huge financial losses as well.

As per the latest report, by State Bank of India, the country could overall suffer a loss of Rs 38 lakh crore in the current financial year, which is 16.9 percent of India's GDP. This implies that the per capita income of every citizen of the country is estimated to be cut by about Rs 27,000. In other words, in the current financial year, every Indian's pocket would bear a loss of Rs 27,000, as per SBI report.

The report also provided a state-wise breakup of how the pandemic has hit the per capita income of states. In Delhi, a per capita loss of Rs 87,223 is estimated, while the common man in Gujarat is estimated to face a loss of Rs. 45,018. Below is the table of losses incurred per person in the listed states.

States	Per Capita Loss
Delhi	Rs. 87,223
Gujarat	Rs. 45,018
Maharashtra	Rs. 38, 841
Punjab	Rs. 34,081
Uttar Pradesh	Rs. 14,006

Looking at overall economic loss in the Financial Year 2021, Maharashtra which attracts maximum investment, is the worst-hit. Here is a list of states and the FY21 loss for these states.

States	Covid-19 Cases	Total loss for FY21
Maharashtra	6.93 lakh	5.39 lakh crore
Tamil Nadu	3.85 lakh	3.51 lakh crore
Uttar Pradesh	1.92 lakh	3.11 lakh crore
Adhra Pradesh	3.61 lakh	2.53 lakh crore
Uttar Pradesh	1.92 lakh	3.11 lakh crore
Adhra Pradesh	3.61 lakh	2.53 lakh crore
Karnataka	2.83 lakh	2.54 lakh crore
Delhi	1.61 lakh	1.66 lakh crore
