New Delhi. In the second wave of Coronavirus in the country, there remains tension regarding lockdown and job among the people. In such a situation, a survey of staffing company Genius Consultants has revealed the relief of jobseekers. According to this survey report, companies are in the mood to increase the salary of their employees. This increment can be from 5 to 10 percent. There may be a change in the salary structure of most of the employed people. 1200 companies included in the survey
 In the survey of Genius Consultants, 1200 companies from all over the country were included. Out of which more than half the company is in favor of increasing the salary of its employees. 59% of the companies said that they are in the mood to increase the salary of the employees.
