As the economy moves to a recovery path after a sharp decline last year amid the pandemic, a study has shown that 59 per cent of companies in India are intending to give salary increments to their employees in 2021.

According to staffing company Genius Consultants '10th Hiring, Attrition and Compensation Trend 2021-22', with this impressive growth rate, the market is expected to be stable, and the companies will also relook at their business continuity strategy along with strengthening the workforce.

This year, the increment scenario seems "welcoming with 59 percent of companies saying that increment is on the cards, which will range between 5-10 percent whereas 20 percent thinks increment will be less than 5 percent and around 21 percent thinks that there will be no pay rise in 2021 too", as per the study.
