Increase In Unemployment Rate – Increase in unemployment rate, but freshers-experienced will get opportunities

April 16, 2021

New Delhi. In the midst of the Corona crisis, there is an all-round attack on the economy and people. On the one hand, the virus has again created an atmosphere of fear among people, on the other hand retail inflation has started to increase. Industrial production has also declined. In the midst of all this, now even a disappointing report about employment has come out. According to a report by the Center for Monitoring Indian Economy (CMIE), the urban unemployment rate reached close to 10 percent during the week ending April 11, 2021.

According to the report, the urban unemployment rate has gone up to 9.81 percent during the week ending April 11. It was 7.72 percent during the week ended March 28. The report says that the rural unemployment rate has also risen to 8 percent. It was 6.18 percent at the end of March.
