Mumbai, Aug 11 (PTI) The free vaccination drive rolled out by the government is likely to create a positive impact on the job market and on the overall economy as most respondents believed that it will help them in providing a safe work ecosystem to their employees with steady work opportunities, according to a report.

Over 87 per cent of respondents believe that the free vaccination drive can prevent a second reverse migration for these workers as they will also be eligible to get vaccines, according to a report by human resource solutions provider Genius Consultants.

Moreover, the report stated that this will help them provide a safe work ecosystem where the inflow of work opportunities is steady.
