Most Indian Kos believe that the resurgence of the MSME sector can boost local employment

lalitsethi · 22 hours ago

The majority of Indian companies (57%) believe that the Ministry of Micro, Small and Medium Enterprises (MSME) sector, which was hit by the COVID-19 pandemic, needs to be revived to promote rural employment. Report. A genius consultant, entitled "Rural Unemployment Rise," reported that the country's economy was adversely affected by the pandemic, affecting almost every sector and industry, especially the MSME sector, which faced a major recession.

According to a survey-based report, most respondents believed that the reason behind the high unemployment rate was the lack of employment opportunities available in the relevant areas.

The survey targeted 1,100 business leaders between August 1st and September 10th. These leaders include sectors such as Banking and Finance, Construction and Engineering, Education / Education / Training, FMCG, Hospitality, HR Solutions, IT, ITeS and Business Processing Outsourcing. , Logistics, manufacturing etc.
